

Developing digital standards

Karen Batt
Senior International Engagement Manager

Standards and our digital world...

STANDARDS
Australia

Represents Australia
at the ISO and IEC

Standards as digital infrastructure

- ✓ Can be globally agreed in **consensus-based** fora, such as ISO and IEC (*promoting consistency, access to markets*)
- ✓ **Not economy (location) specific** (*enabling interoperability*)
- ✓ Promote a **Level Playing Field** (*fostering competition*)
- ✓ **Foster consumer confidence**

Standards in emerging technologies

“Governments should promote the development of multi-stakeholder, consensus-driven global technical standards for interoperable and trustworthy AI.”

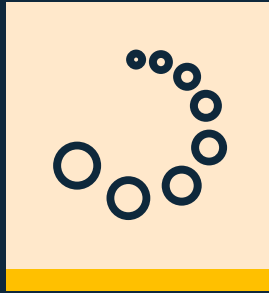

Recommendation of the Council on Artificial Intelligence (Adopted 22/05/2019)

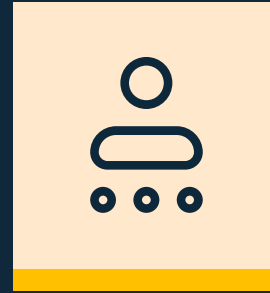

Types of standards

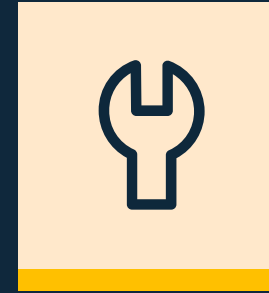

Product standards

Process standards

Management system standards

Services standards
